(54) WEB BROWSING METHOD

(57) Abstract:

PROBLEM TO BE SOLVED: To provide a web browsing method for allowing a user side terminal to browse contents which are being browsed from a specific client side terminal.

SOLUTION: This web browsing method through an internet 2 comprises a step for allowing a user side terminal 1 which performs access to a web server 3 to transmit the URL information of contents which are being browsed and displayed at present through an application server 4 to a specific operator side terminal 5 and a step for allowing the specific operator side terminal 5 to display the contents of the URL information transmitted from the user side terminal 1.

LEGAL STATUS

[Date of request for examination]

[Date of sending the examiner's decision of rejection]

[Kind of final disposal of application other than the examiner's decision of rejection or application converted registration]

[Date of final disposal for application]

[Patent number]

[Date of registration]

[Number of appeal against examiner's decision of rejection]

[Date of requesting appeal against examiner's decision of rejection]

[Date of extinction of right]
